I'm Robel Tamiru
I'm Your Guy

Greetings my name is ROBEL TAMIRU and I go by Dotphic. I'm a 24 years old architect graduate who is passionate about sounds and visuals. My goal in life is to excel in digital art, and I plan to do it through perseverance and hard effort.

My Skills

You Can Imagine
What I Can Do

Throughout my time as an Architecture student, I have honed in a variety of graphics-related abilities, including drawing, character design, rendering, composition, photography, music production, and sound design. Computer programs like Photoshop, Illustrator, Premier Pro, Fresca, Revit, Sketchup, Lumion, Twinmotion, Ableton, and Blender(3d) are the ones I prefer to use when creating art .

Music Production	86%
Graphic Design	90%
Architectural Design	66%

I'm the guy for you

What I can do....

My Services

Photography and Video
From swimming to editing, I can manage your opportunities and thoughts, as well as control and construct work for eye-catching produced goods as well as...

Music Production
The art of producing music involves having a concept for a song or series of songs and being able to carry it out. As a mix and recording engineer With more than 6 years of expertise, I take a professional approach to music creation. From unfinished tracks,SFX and demos to finalized products ready for release.

Graphic Design
In graphic design, I create eye catching designs that elevate the standard of our company across multiple platforms. with clever and creative work to convey your business ideas to the audience via eye-catching graphic designs
